

Salesian English School - English Department

English @ Salesian 2019

Having more exposure to authentic English

NETs are an integral part of our English-rich environment. They help to design teaching materials, teach lessons, organize activities and provide more chances to expose students to English.

The Pre-S.1 Bridging Course held in August every year is a golden opportunity for our students to prepare themselves for an English classroom when school resumes in September. They spent 5 days with the NETs learning English, Science and Mathematics.

Pre-S.1 Summer Bridging Course

The English Corner of our school provides a place for students to learn English in a relaxing way. Here students can learn English through games and movies and talk with our NETs.

English Ambassadors are our invaluable helpers in and out of the English Corner. They are a group of committed members willing to help schoolmates in brushing up their English. As they are also subject representatives, they help to create an English-rich environment not only in the English Corner, but also in their own classrooms.

Hard work and patience paid off!

Enhancing students' interest to learn and empowering students to be independent learners

Promoting self-directed learning via the English Channel on our school website.

As in learning other languages, the key to success is the time you spend on it. Language learning requires constant exposure to the targeted language, otherwise there can be little progress. Our school organises various English activities with this fact in mind, and with the aim of creating an English rich environment to provide students with more exposure to the language.
